

**Baseline Conditions Report  
for  
Ramona Grasslands Preserve  
San Diego County**

**January 2007**

“Funding for this project has been provided in full or in part through an Agreement with the State Water Resources Control Board (SWRCB) pursuant to the Costa-Machado Water Act of 2000 (Proposition 13) and any amendments thereto for the implementation of California’s Non-point Source Pollution Control Program. The contents of this document do not necessarily reflect the views and policies of the SWRCB, nor does mention of trade names or commercial products constitute endorsement or recommendation for use.”

<b>ACKNOWLEDGEMENTS</b>	ii
<b>1.0 INTRODUCTION</b>	1
<b>2.0 STUDY AREA DESCRIPTION</b>	1
<b>2.1 Onsite Land Uses</b>	2
2.1.1 Ramona Airport	2
2.1.2 Ramona Municipal Water District	2
2.1.3 Cattle grazing	3
<b>2.2 Geology and Soils</b>	3
<b>2.3 Climate</b>	4
<b>2.4 Hydrology</b>	5
<b>3.0 METHODS</b>	5
<b>3.1 Grasslands</b>	5
3.1.1 Stephens' kangaroo rat	6
3.1.2 Grassland vegetation	8
3.1.3 Raptors	10
<b>3.2 Vernal Pools, Vernal Swales, and Alkali Playas</b>	11
3.2.1 Vernal pool, vernal swale, and alkali playa vegetation	11
3.2.2 Hydrology and water characteristics	12
3.2.3 Fauna	13
<b>3.3 Santa Maria Creek Corridor</b>	14
3.3.1 Water quality	14
3.3.2 Channel geomorphology	14
3.3.3 Riparian vegetation	14
3.3.4 Avifauna	15
3.3.5 Arroyo toad	16
<b>3.4 Invasive Nonnative Plant Removal</b>	16
<b>4.0 RESULTS</b>	17
<b>4.1 Grasslands</b>	17
4.1.1 Stephens' kangaroo rat	17
4.1.2 Grassland vegetation	18
4.1.3 Raptors	20
<b>4.2 Vernal Pools, Vernal Swales, and Alkali Playas</b>	21
4.2.1 Vernal pool, vernal swale, and alkali playa vegetation	21
4.2.2 Hydrology and water characteristics	22
4.2.3 Fauna	23

## LIST OF TABLES

	<u>Page</u>	
Table 1	Grazing intensity (AUM) on Cagney Ranch, Oak Country Estates, and Davis-Eagle Ranch from 2004-2005.	4
Table 2	SKR distribution survey dates and areas surveyed.	6
Table 3	SKR burrow density classes as originally defined by O'Farrell (1992) and as scaled down for finer-resolution mapping in the field by S. Montgomery.	7
Table 4	Grassland plots and survey year.	9
Table 5	Grassland monitoring plots relative to SKR habitat quality rankings.	10
Table 6.	Geographic complexes supporting surveyed vernal pools, vernal swales, and alkali playas.	12
Table 7	Total number of seedlings recorded at each riparian transect location.	27

## APPENDICES (SEPARATE VOLUME)

APPENDIX A—*Biological Survey Report for the Santa Maria Creek Restoration Project: Stephens' kangaroo rat* (Spencer and Montgomery 2006)

APPENDIX B—*Wintering Raptors of the Cagney Ranch and Surrounding Ramona Grasslands (2003-2006)* (Wildlife Research Institute 2007)

APPENDIX C—*Biological Survey Report for the Ramona Grasslands Preserve* (RECON 2005)

APPENDIX D—*Biological Survey Report for the Santa Maria Creek Restoration Project: riparian birds* (Lolio 2006)

APPENDIX E—*Biological Survey/Monitoring Report for the Santa Maria Creek Restoration Project: arroyo toads* (Hollingsworth et al. 2006)

APPENDIX F—*Invasive Weed Report for the Santa Maria Creek Restoration Project: grassland and riparian invasive weed control efforts and results* (Kelly & Associates 2007)

## ACKNOWLEDGEMENTS

We would like to acknowledge the contributions of many organizations and individuals to the Ramona Grasslands Preserve Baseline Conditions Report. The following organizations and individuals conducted the technical studies that were the basis of the information reported herein: RECON Environmental, Inc., Technology Associates International Corporation (TAIC), Wildlife Research Institute (WRI), Kelly & Associates, John Lovio, San Diego Natural History Museum, Wayne Spencer (CBI), Steve Montgomery, Molly Pohl-Costello (SDSU), Fred Sproul, Gena Calcarone, and the City of San Diego Water Department. Susan Hector developed cultural resources information for the Preserve.

TAIC maintained the project database and prepared all of the maps used in this report. Gena Calcarone performed data entry and cataloged photographs. CBI staff Wayne Spencer, Nancy Staus, and John Bergquist contributed to data analysis for the project. Zachary Principe and Chris Basilevac with The Nature Conservancy provided invaluable field assistance and information on the properties owned by their organization.

We would like to thank Tellam & Tellam Cattle for their assistance with understanding their cattle operations in the Ramona Grasslands and their patience with the changes underway in the Preserve.

Finally, we would like to thank the California Water Resources Control Board for funding the Proposition 13 Grant for this project, Debbie Woodward with the San Diego Regional Water Resources Control Board for her assistance administering the Proposition 13 Grant, and staff at the San Diego County Department of Parks and Recreation, particularly Maeve Hanley, Jennifer Haines, and Carole Melum, for their help and contributions to the project.
